

**Amendment 0002  
to  
MATOC Solicitation 05-0001-37**

Section 3.2.3 of the solicitation is hereby revised to clarify bidding of hours as follows:

“3.2.3 The above labor categories and hours are provided as the Government's best estimate of the work to be performed. The Government's estimate includes a total of 16 man-years or full-time equivalents (FTEs) per year. The Government estimates that a man-year is equal to 2,080 hours (52 weeks x 40 hrs per week). An offeror may bid less than 2,080 hours per man-year to account for holidays, vacation days and/or sick days, however, the proposed level of effort shall equal 16 FTEs per year. To the extent that the proposed level of effort is different than the Government's estimate, the offeror's Technical and Cost Proposal should clearly explain this difference. However, the proposal must include all labor categories for 16 FTEs in order to fulfill the requirements of the Statement of Work.”
